The following named persons are a few of many who have been cured of the severest sort of Rheumathem by these powders.

Mrs. Low, 50 Vandam-st has been confined to the house the past sixteen years of Paralysis, or Hemiplegia, which deprived her of the use of the left entire side, from the head down; and during her liness of 16 years, she could not sit at the table and take her meals with the family, in consequence of the food falling from her mouth. She now, within the last several days past, sits at the table with the family, and partakes of her meals with pleasure, and moreover, chews her food on the left side in preference to the right side, which she has not done before it the past aix teen years; in fact, the muscles of the tongue and of the mouth are restored to their natural motions, and likewise the muscles of her arm and leg perform their functions, as that she stands on her foot and raises her arm, which she has not done during her lilness, until within a few days past. The friends of persons who are afflicted with the sort of disease mentioned in this advertisement, may call on Mrs. Low and judge for themselves of the wonderfal curative properties of these powders. Mrs. Low commenced taking heave powders November S, 1830.

Mrs. Eliza Gornesy, 100 Delancy-st, is now almost cured of paralysis by these powders, after having made trial of many other remedies to no purpose.

Bridget McGin, 7 Autorney-st, was cured by these powders, after taxing been afflicted eight years with Rheumatism in the head, and during this time she was obliged to have her head shorn, and ewear fannel caps; she has now a fine head of hair, and enjoys the bear of health.

SEWING MACHINES-CAUTION .-

SEWING MACHINES—CAUTION.—
The subscribers, owners of the ROTARY SHUTTLE MACHINE, patented Oct. 1843, hereby Caution the Public against purchasing or using Machines which infringe upon their patent, as they will prosecute to the extent of the law all such infringements.

Our machines are now offered for sale for the first time. They have been in use in this city for one year. One firm has made ten thousand dozen Gloth and Plash Caps. Several other companies have employed them very problady in making clothing, carpet and grain bags, and for other purposes. There are a number now in use at the flattery of H. W. Banks & Co. Elm, corner of Canal-st, where those wishing to purchase are invited to call and see them in operation. Messrs. H. W. B. & Co. are authorised to make sales of Rights or Machines for use in this city.

These machines are so easily maingred, that a child of H years of age has kept ever machines (which are propelled by steam and employed in making bags) in good order for some months past, stiending at the same time to the running of her own machines and doing with it the work of four aduks if sewing by hand.

These machines can be driven by hand, treddle, or tream power. To persons wishing to make an experiment before buying, a machine would be rented at a moderate price. We confidently assert that these are the only machines of real practical utility, and while we invite an examination of the machines now in operation, we repeat our caution against infringments, which will certainly be prosecuted.
